An opportunity currently exists for a GP/Obstetrician and a GP/Anaesthetist to join Kerang District Health encompassing that highly sought after work life balance

- Brand New State of the art facilities
- Lifestyle living – pristine bushlands, parks & waterways, cafes and restaurants
- Join a professional team that strive to make a difference!

About the Organisation -

Kerang District Health is currently seeking a GP Obstetrician and a GP Anaesthetist to consult at their GP Clinic and provide obstetric, anaesthetic and medical services to their inpatients in a brand new state of the art hospital.

Kerang is situated at the junction of the Loddon Valley and Murray Valley Highway, 278km north-west of Melbourne. The Loddon River runs through Kerang and into nearby wetlands which feature over 50 lakes, swamps and lagoons. The wetlands are home to thousands of colourful and graceful water birds. Several larger lakes are popular with water-sports, boating and fishing.

The town has a population of approx. 4000 and the district approx. 8000 and is serviced by daily trains and buses to Bendigo, Melbourne, Echuca, Swan Hill and Adelaide. There is a child care centre, kindergarten, four primary schools and two secondary schools. The local aviation club provides flying instruction and district sports include football, cricket, netball, tennis, lawn bowls, golf and others.

Currently the health service is undergoing a $36.3M capital redevelopment and this is expected to be completed in March 2016. The health service with 24 acute beds and 30 residential aged care beds would generally deliver approx. 60 babies a year and also provides acute medical and surgical services. These positions also have the potential to provide obstetric and anaesthetic services to neighbouring hospitals.

The successful applicant will work with two other GP’s at the Clinic generally seeing 32 patients a day over an eight hour period and also be required to participate in the oncall roster at the hospital with five other local GP’s.

In return the successful applicant will receive;

- Clinic and hospital income of 70%;
- Reimbursement of relocation expenses;
- Housing and motor vehicle assistance;
- Oncall payment paid via hospital payroll with salary packaging available

What’s in it for you?

- The ability to join a dynamic and diverse team
- Work with a company that cares about their people
- Ongoing training, development and support
- Competitive salary
